Advancement Procedures

Purpose: It is the responsibility of the Circle Ten Council Camping Department to determine and approve the procedures for summer camp advancement. This will ensure that a uniform procedure is in place and that a quality Summer Camp Advancement Program is offered at all Council camps.

Yearly Review: Merit badges offered at our Council camps are reviewed on a yearly basis. Requirements are reviewed based on facilities and equipment available. There are no prerequisites or age requirement to take a Activity badge unless so stated in an individual Merit Badge requirement. Some badges have requirements that cannot be completed at camp. These badges are listed as “partial only” merit badges.

Session size: We strive for a maximum of 25 Scouts per merit badge session. Additional sessions will be added only if additional qualified counselors are available. Some merit badge sessions have a size limit less than 25, due to equipment or facility limitations and safety considerations.

Online Registration: In an effort to make your summer camp experience less hectic and more enjoyable, each camp will require pre-scheduling of your Scouts’ merit badges and program activities. Please refer to the section labeled “Online Registration” for the details and pre-scheduling deadlines.

Partial Credit: Extended time, troop participation, or other requirements that cannot be completed at camp will result in a “Partial Completion”. These merit badges are noted as “partial only” in the list of Activity Badges Offered section of this guide. Please review this list prior to camp to avoid confusion. Verification of requirements not completed at camp will be the responsibility of the leaders at the unit level.
